

Flying Saucers Have Landed

Review by Arthur C. Clarke from Journal of the
British Interplanetary Society March 1954

Keep

Readers of the Journal who have already seen this book may well wonder why we are bothering to review it in these pages. We do so partly to save other members from wasting their money-- unless they happen to be particularly interested in psychopathology, but primarily because it has been so widely reported that some analysis seems necessary. It is an appalling comment on present day journalism that even the Observer saw fit to consider this farrago of nonsense seriously, thereby influencing thousands of readers who might otherwise have treated it with the contempt it deserves.

The book is in two parts. Book One by Desmond Leslie, is an immense incredible hodge-podge of "Saucer" sightings, going back to ancient oriental writings, and obviously the result of much reading. We hesitate to say "Scholarship" in a book which cannot even get its short bibliography in alphabetical order, and which in one place refers to "Arthur Clark and Willy Lee" (though we did not let this prejudice us unduly.) It must be admitted that many of the pages that Mr Leslie has dug up from Indian religious writings are quite fascinating. If they prove one thing, it is that science fiction has a more venerable antiquity than even its most devoted advocates imagined. No doubt some diligent reader in two or three thousand years time, will employ Mr. Leslie's technique to prove, from ancient fables of Amazing Stories, that early twentieth century had spaceships, heat rays antigravity and robots.

But let us leave these ancient writings and Mr. Leslie's comments upon them, most of which will only interest those whose brains have already been addled by occultism. We are even prepared to grant the author's premise which is that the persistence of much accounts down the ages proves that "saucers" have always been with us.

Coming to more modern times, there are lists of sightings including many contemporary newspapers, which at first makes an impressive case. Some of these are undoubtedly "genuine", unexplained "saucers" but such indiscriminate listings are totally worthless without careful evaluation. Even from the scanty information Mr. Leslie gives, it is possible to eliminate many at once, and many others prove yet again the complete inability of untrained observers to describe what they are seeing. Again and again altitudes and speeds are given, despite the fact that these can seldom be estimated even approximately by a single observer. Such phrases as for example "faster than a jet" are utterly meaningless since a jet or its vapour trail (the undoubted explanation of many cases) can move across the sky at almost any apparent speed.

After reading this book a good dose of "Dr Menzel's Flying Saucers" is strongly recommended as a purgative. In our opinion Dr. Menzel goes too far to other extreme, but he has done a useful service in showing what fantastic effects can be produced by perfectly natural causes. Such an attitude is far better and healthier than the naive credulity with which this book under review is permeated.

One example will suffice. A report is given of a saucer "over the south west France in October 1952, (the date

is important) which rained down bright whitish filaments like glass-wool. Many eye-witnesses gathered whole tufts, but unfortunately it disappeared before it could be taken to a laboratory.

From this report Mr. Leslie conjures up a whole super-structure of speculation involving ectoplasm and celestial circuses. Anyone with an elementary acquaintance with natural history could have told him, on the other hand that this beautiful phenomena happens every autumn over many parts of Europe, although this reviewer has only seen it once, he will never forget the sight of whole fields draped with a continuous carpet of glittering almost invisible threads.

It did not occur to him that it was ectoplasm, which was a pity. How much more fun if he had never heard of gossamer spiders.

It would obviously be impossible to explain away all the sightings and phenomena reported by Mr. Leslie, and even if one did account for 99 percent of them, he would still cling desperately to the remaining hundredth. There is a type of mind which will believe anything if it is sufficiently fantastic, and it is a waste of time arguing with it. No one has ever received much thanks for expressing credulity.

The second part of this book consists of a report by one George Adamski, whose small observatory in a wayside cafe can be seen nestling at the foot of Mount Palomar, to the considerable annoyance of the people at the summit. Mr. Adamski's hobby is photographing flying saucers, and he is undoubtedly the most successful of this interesting art.

There are several close ups of saucer space ships, leaving no doubt that they are artifacts. The uncanny resemblance to electric light fittings with table tennis balls fixed underneath has already been pointed out elsewhere. At first sight, indeed one may almost conclude that Adamski's spaceship photos are so unconvincing that they aren't faked. To us the perspective appears all wrong, and though this is a qualitative impression perhaps not susceptible to rigorous proof, the pictures seem to be of small objects photographed from very close up and not a large object seen through a telescope. (Many people, including we suspect Mr. Adamski, do not realise that a large object seen through a telescope bringing it to within 20 feet looks quite different from the object itself 20 feet away.)

We have a much more serious comment, however to make on photograph 3, which purports to show a fleet of saucers taking off from the Moon. Alas, something has gone wrong there. We would like Mr. Adamski to account for the fact that one of his saucers appears to be inside his telescope.

This would not be apparent to anyone who was unacquainted with lunar geography, but an inspection of the background shows that the line of saucers is not clear on the Moon's edge as it appears at sight, but extends off the field of view of the lens altogether. It is odd to say the least that Mr. Adamski's telescope is able to see saucers and to ignore the Moon.

There is one plate (No 9P which is undoubtedly unfaked, and is an insult to the public. It is a night scene of New York, and above a street lamp with "saucer" hanging above it.

If Messers Adamski or Leslie had bothered to show this to any competent (or perhaps even better incompetent) photographer they could have learned at once that this was nothing more than the internal reflections of the camera lens (flare) the almost inevitable result of having a bright light in the field of view. Even the characteristic curves due to spherical aberration are clearly visible tangential as they should be, to the line pointing to the source of light. The same camera at the same place, will always produce the same saucer. If there is another edition of this deplorable book, at least the publishers should have the honesty to label this photograph for what it is.

But Mr. Adamski is not content to photograph saucers. With his friends, he succeeds in meeting the representative of saucer civilization when he lands his vehicle in the -- presumable-- totally uninhabited State of California. The account of this meeting should succeed in blasting any fragments of belief of the more credulous readers may have in Mr. Adamski's reliability. It should be as ludicrous as the idea that for years saucers have been flitting round Palomar-- of all places! -- invisible to everyone except Mr. Adamski's and his friends.

This encounter with the Venusian pilot raises a very intriguing question. In his comprehensive account of saucer phenomena, R. Leslie ~~Adamski~~ makes no mention of the crashed spaceships described in Frank Scully's book Be and the Flying Saucers. (Though he does mention Scully in passing) Can it be that there is something that Mr. Leslie does not believe in. Or can it be because Mr. Scully's three foot high Venusians do not agree too well with R. Adamski's five foot variety. And that will be done when the seven foot model turns up-- as is only a matter of time? I hope he will be sufficiently sporting not to ignore the rival versions as they accumulate.

We think the above comments will be more than sufficient to enable any intelligent person to decide the merits of this book and an entire volume of refutation would be wasted on the sauceromanes who are beyond the reach of reason. But we would like to end by saying why we are so annoyed with Messrs. Leslie and Adamski.

For a long time we were completely sceptical of saucers, and it was quite a shock to us when we discovered that they did exist and that for many of them no reasonable explanation (page Dr. Menzel) has yet been forthcoming. However, despite some serious objections (see our editorial in the May 1953 Journal) the explanation that they are in fact the products of extra-terrestrial intelligence is stimulating, has a small but definite probability, and should certainly not be dismissed with scorn.-- least of all by members of this society. But this conclusion is of such overwhelming importance that it cannot be accepted without a degree of proof that it would be unreasonable to in a case of lesser significance.

-4-

Books like Flying Saucers Have Landed to a r al disservice by ob curing the truth ad scaring away serious researchers from a field which may be of great importance. If flying sa ucers do turn out to be spaceships, Messrs Leslie and Adamski will have done quite a lot to prevent people of intellectual integrity from accepting the fact.

5410 Lisette Ave.
St. Louis (9) Mo.
June 25, 1954

Mr. Frank Scully;
Dear Sir;

I would like to know if you could tell me where or how I could get some more books on Flying Saucers. I have read your book, Behind The Flying Saucers, and I think that it is one of the best written, and most interesting book I have ever read. I also have read these books; Flying Saucers Have Landed, by George Adminski, Flying Saucers From Outer Space, by Major Donald E. Keyhoe, and Is Another World Watching? by Gerald Heard.

Since I consider your book to be the best, I am asking you for any information you can give me on how I can secure more books along this line.

Sincerely

Samuel L. Catanzaro
you

P.S. I especially would like to know if have or are going to write any more books of this type. *h*

These books I am listing can be purchased from most large book stores or from the place I list.

Flying Saucers From Outer Space - \$3.00 by Major Keyhoe, Henry Holt & Co., 383 Madison Ave. N.Y. 17, N.Y.

Flying Saucers Have Landed - \$3.50 by Leslie & Adamski, British Book Center, 420 W. 45th St. N.Y. 36, N.Y..

Ether Ship Mystery and Its Solution - \$2.00 by Meade Layne B.S.R.A., 3524 Adams Ave. San Diego, 16, Calif..

"Round Robin" & "Clips- Quotes- Comments" and other literature from Borderland Science Research Associates, 3524 Adams Ave., San Diego 16, Calif..

Coming of the Space People - \$1.00 by Dr. Gilbert Holloway, School of Philosophy and Religion, Box 27866, Los Feliz Sta., L.A. 27, Calif.

Flying Saucers - \$1.00 by Sanctilean from Devorss & Co. 516 - 9th St., L.A. 15, Calif..

The Coming of the Saucers - \$4.00 by Kenneth Arnold and Ray Palmer, which contains many saucer photos - purchased from "Fate" magazine, Evanston, Ill.. "Fate" is a rare and fearless magazine that publishes many rare phenomena that other magazines are afraid to handle.

Is Another World Watching - \$2.75 by Gerald Heard - Harper Bros. Publishers. Can be purchased from leading book stores.

Below here are some good Saucer Clubs and their magazines.

"Roundhouse" - 12 issues - \$2.75 a year, Neal Kearney, R.R. #3 Maquokets, Iowa.

"Saucers" - a quarterly - \$1.00 a year published by Flying Saucers International, a non profit organization at P.O. Box 34 Preuss Station L.A. 35, Calif..

"The Flying Saucer News" 6 issues \$1.00 bill. British Flying Saucer Bureau, 71, Chedworth Rd., Horfield, Bristol, 7, Eng..

Australian "Flying Saucer Magazine" - \$1.00 bill a year from Australian Flying Saucer Bureau, 3 Ferguson Ave., Fairfield, N.S.W. Australia.

"Flying Saucers" a quarterly - \$1.00 bill a year, official publication of the Civilian Saucer Investigation - P.O. Box 1914, Auckland, New Zealand.

There are more than I have listed here. If you read these I have listed, they will lead you into more. By this study and search I guarantee that you will find much wisdom regarding the "Saucers" and the Coming "New Age" which is also called the "Golden Age" because as the vibratory rate will increase, the natural color of green will change into Golden. This vibratory rate increase will eventually put

ADVANCED SAUCER LITERATURE

Besides the books and organizations I listed on P.9 of "A Study of the Flying Saucers," I wish to point out these following to the more advanced student of Cosmic Actualities who are New Age conscious.

There will be even more literature published soon as some of the scores of earth people who have actually ridden in them, bolster up their courage to face the abuse of their more ignorant fellows and have their stories published. There are groups who are growing more enlightened, while the masses of people are growing more gross of mind. These materialists are the people who are bringing on this time of trouble. If they would but listen to the voice of their Elder Brothers from outer space, but they won't. Why? Because of these many orthodox religious organizations who are filled with blind dogmas that actually are mere superstitions. I can not say anything against the Bible, but I certainly can against those hundreds of denominations who teach falsely from it, and who falsely say that they believe in it, for I have proved in many places that they don't believe in what they teach. And furthermore they will curse you like they do me for showing them the Scriptures in the Bible that they think they have hidden. But these are the days when all things are to be brought into the light of day.

The orthodox Jews tried to stop Jesus, like the orthodox Christians of today are trying to stop these New Age groups.

"Venus Speaks" \$1.00 Bill or 5/6d, Regency Press, (L.&N.Y.) Ltd., 43 New Oxford St. London W.C.1, England, publ. 1954, is a book whose messages were received telepathically from Venus by Cyril Richardson. It reveals the workings of Flying Saucers, Space Ships, life on Venus, information concerning the moon, how to prepare for the coming climatic changes, and a warning and messages from a superior race. Will man destroy himself or will he heed this message. I believe this to be one of the best pieces of literature published to date regarding these things.

"The Saucers Speak" \$2.00 by G.H. Williamson publ. 1954 by New Age Publ. Co. 1542 Glendale Blvd. L.A. 26, Calif.. This book gives genuine messages received, and contact with the Saucers. (also good)

"Aboard A Flying Saucer" \$3.00 Devorss & Co. 520 W. 9, L.A. 15, Cal.. Truman Bethurum relates his 11 visits inside a flying Saucer and his troubles with his wife and friends because they thought that he had hallucinations. But they were at fault because they refused to come with him or investigate these things. I certainly believe Truman's story.

"Interplanetary News Digest" 5 issues for \$2.00, Joshua Tree, Calif.. This magazine is very good and covers a wide scope of affairs.

"Golden Light" A monthly publ. by The Fellowship of Golden Illumination, 1014 So. Lake St. L.A. 6, Calif. This contains messages from other planets and also from high angels that are vital to this New Age. They also publish other interesting brochures.

"Proceedings" a mag. from College of Universal Wisdom, Yucca Valley, Calif..

The above may be too hard for the beginner to assimilate. It is better that he starts from the list on P.9 of "Study of the Flying Saucers."

July 12, 1954

Dear Mr. Scully,

I am making an intensive study of material on the "Flying Saucers" and of course your book is one of the prime considerations.

I would greatly appreciate it if you would drop me a few lines to clarify whether there have been any great changes in your beliefs or conclusions since you wrote that book. If I might imitate your own style of posing questions:

- 1) Knowing our country and its people as you do, can you really believe that of the dozen or more military and scientific men supposed to have been examining and looting the three landed saucers, not to mention the additional scores at the laboratories where their contents were supposed to have been analyzed, nor to mention their families, and considering that there was not even supposed to be any secrecy at first (not that it would have made much difference) that notwithstanding all these considerations, "DR. GEE" SHOULD BE THE ONLY SOLE, SOLITARY PERSON TO SPEAK ON THE SUBJECT.
- 2) Are you now willing to identify "Dr. Gee"

(over)

- 3) Has anything transpired to convince you "Dr. Gee" was a hoaxer. (I am assuming both you and Silas Newton would be beyond that). I guess you know that Joseph Rohrer, who gave a talk similar to Silas Newton's, subsequently admitted the whole thing was a hoax.

Any advices you could take a little time to let me have will be greatly appreciated.

Yours truly

Edgar H. Leoni

Mr. Frank Scully
Desert Springs, Calif.

Dear Mr. Scully:

A few years ago I wrote you regarding an alleged expose of your book 'Behind the Flying Saucers' as run in a monthly magazine. At that time you sent me a press release answering some of the charges made in the magazine article and saying you contemplated answering further at a later date in another book perhaps. Have you written this book yet? I'm still very much interested in this subject and am more convinced than ever of the extraterrestriality of these objects. Recently heard an announcement by an anonymous physicist that these craft are a gravity nullifying mechanism and are inertialess. The first time I heard of that hypothesis was in your book. I have seen it countless times since in all types of magazines. The other night I was browsing over a magazine rack and spotted a new mag. At least new to me. There was a saucer story in it so I got it. Reading thru it I had a feeling I had read it before and checked back thru my file. I found the magazine story of a saucer landing in Heligoland almost paralleled your story of the one that pancaked to Earth in New Mexico. I thought you might like to read this story so am enclosing a copy torn from the magazine. You will note in this story the measurement of Saucer is divisible by 7. Will appreciate any info you may have about what is new in Saucer world and what you have written lately.

Sincerely

George W. Dunton

DEAR KARSTEN:

COULD YOU CHECK FOR ME IF THERE IS SUCH A PERSON AS
DR. HANS LOBERG IN NORWAY?

THIS THING LOOKS NOT SO MUCH LIKE A HOAX AS A GARBLED
TRANSLATION OF PARTS OF BEHIND THE FLYING SAUCERS, REWRITTEN AND
THEN SENT BACK TO AMERICA. IF IT ISN'T, IF IT'S TRUE IT IS GOING
TO MAKE A LOT OF FACES RED AND THEY WONT BE MINE.

I AM LOATHE TO BELIEVE IT BUT I RUN INTO SUCH FAN-
TASTIC STUFF ALMOST EVERY DAY AND NATURALLY I WANT TO RUN DOWN
THE TRUTH OR FALSITY OF THE STUFF.

THE MAGAZINE THIS APPEARED IN IS A TRASHY, SEXY
THING BUT SOMETIMES YOU FIND GOOD THINGS IN TRASH CANS AND JUNK
IN HIGH CLASS PUBLICATIONS. SO I DONT WANT TO CONDEMN THE SOURCE
WITHOUT CHECKING.

AS YOU KNOW BEHIND THE FLYING SAUCERS APPEARED IN
SWEDISH AND DANISH TRANSLATIONS AND HELIGOLAND IS NOT FAR FROM EITHER.

IF THE THING TURNS OUT TO BE AN OUT AND OUT HOAX GIVE
ME THE DETAILS AND RETURN THE CUTTING, PLEASE?

THIS IS JUST A FLASH NOTE SO FORGIVE MY WRITING
IN BREVITY. YOU KNOW ALL OUR LOVE GOES TO ALL OF YOU AND IF YOU
CAN EVER MAKE THE TRIP TO CALIFORNIA WE HAVE PLENTY OF ROOM FOR
ALL OF YOU FOR AS LONG AS YOU CAN STAY.

EVER,

2071 Grace Ave.
Hollywood, Calif.

Dear Mr. Scully:

I was very sorry to hear of your long illness some time back and have appreciated your circumstances the more since I too have been almost wholly de-activated for the past three months with an injured spine which causes much pain and may require a serious operation. My wife does the typing for me (as she is doing now) which otherwise I could not do.

As I keep coming upon new matters concerning the "flying saucers" I often wish I could consult with you, whose information is so great and whose feet are solidly on the ground. First, there is the matter as reported by B.S.R.A. in San Diego of the reported landing of five space ships on an Edwards Air Force Base field on or before April 15 of this year. I am sure you have the story. The space craft are said to have landed; the crews emerged; the commander asked for President Eisenhower, who came at once (purportedly for a "rest" at Palm Springs) and received a message. The five ships were thoroughly studied by our air and government scientists, who were assisted by the crews-- with the result that our people are said to be completely dismayed by their discoveries.

I am trying to run this story down for any possible verification, as you, no doubt, already have done. Have you found anything concrete and dependable indicating the story may be substantially or partially true?

Here are some other questions which I hope you may have information upon and may feel free to answer: Do you know whether Truman Bethurum is now "in the desert" for his further attempted contact with the Clarion people? Still more important, do you know whether he has met with any success?

I judge you have read Williamson and Bailey's "The Saucers Speak," and I would be interested to have your opinion concerning the there-promised "Masar-landing" for 1956. What do you make of George

A CENTURY OLD - NOVEMBER 6, 1941

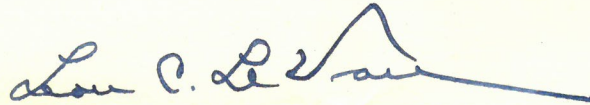

ON SATURDAY EVENING, NOVEMBER 6TH, 1841 AT THE HOME OF A. J. KLINE, JOHN H. MELLOR, GEORGE SMITH, ELIZABETH YOUNG, ANNA AIKEN, MARY JANE FOSTER AND M. COATES WERE REGULARLY INSTITUTED INTO A SOCIETY OF THE NEW JERUSALEM CHURCH IN THE UNITED STATES BY THE REV. RICHARD DECHARMS.

Van Tassel's I Rode A Flying Saucer? I wrote to him once but did not get a direct reply. However, Miss D. J. Van Tassel (now married, I believe) replied for him saying his actual contact with a space ship was not yet available in print; but I understand she is now to write the account herself, which presumably then will be published.

While I was at summer camp in Michigan last week, I gave three talks on the subject of planetary travel and flying saucers but was met with mixed reactions. One of the most influential ministers tried to brush it all aside as completely non-existent, and another of the members insisted "it's all spiritualism." I think it is fair to say that most of the other hearers accepted the reports as true, with some probably having honest doubts.

I recall that you were to start writing your manuscript this summer. If so, I hope you are making a good beginning and that the result may finally be as significant, or more significant, than Flying Saucers From Outer Space. I hope you will have time to write, and I will be looking for your reply with deep interest. With kind wishes.

Sincerely yours,

A handwritten signature in dark ink, appearing to read "Lou C. DeVane". The signature is fluid and cursive, with a long horizontal stroke extending to the right.

And SAUCERS

Mr. Scully:

I have a few questions which I would like you to answer, if at all possible, concerning the subject matter of your book, "Behind the Flying Saucers". These questions are as follows:

What further information have you received about the three saucers that crashed and were taken by the U.S. Air Force?

What happened to the bodies of the occupants?

What further information have you concerning the magnetic radio and time piece that was found on one of the saucers?

Has any more details been given out on the condition of Captain Mantel's ship or body.

Do you have any information on the following:

What is the names and address of a few of the top Magnetic Engineers in the country. Please include Silas Newton.

Is there any University that confers a degree on Magnetic Energy. If there is no degree conferred on Magnetism then what degree would be the closest parallel.

What information and theory could you give me on the Rocket fired at White Sands that disappeared while in flight?

If you feel these questions should not be answered at this time do not hesitate to let me know. In any event may I at least hear from you as I am an interested party.

Sincerely,

Newcastle, Wyo. June. 12th, 56.

Mr. Frank. Scully,
Author "Behind the Flying Saucers,"--
Holly Wood, Calif.

Dear Mr. Scully:

Have you yet discovered that not a few of our "Saucer Fans," seem to be affected with "Saucer Mental Psychosis," and seem to be "Psychom-atics," and are super-dupeing them-selves into believing they are "Psycho-psycal," for instance Dr. Geo. Adamski?

I am beginning to believe that this gentleman thinks him-self a "Psycho-super-genus," and carries arround on his shoulders a "Mental Broadcasting and receiving psychometeryic-gramophone," that he uses exclusively in his contacts with "Saucers and planetary space-men" through mental telepathy, in receiving and transmission of messages from one psychiatric mind to another!

Have been getting an awful kick out of reading Adamski's book entitled--- "Inside a flying Saucer," and believe I have discovered that Dr. Adamski's "Psychometeryic-gramophone," really clicks with a clatter that does more than clutter. Therefore I am adviseing all "Saucer Fans," so affected to consult a Psychoanalist, and take treatments in psychotherapy.

Strange as it may seem, Dr. Adamski, dosent know that theid is no such thing as "Mental Telepathy. You can give any one the horse-laugh who claims this mental ability. Investigators find it poppycock from A to Z.

It looks from here like "Adamski-ism," is developeing into a Sect, or kind of Flying Saucer religion, as many interplanetary groups are now being organized in this and foreign countries. And wouldn't the U. S. Gov-ernment like to decoy "Space men and Ships," to this planet and engage them in Interplanetary tranportation, saveing \$\$\$ in Rockets, Satelites, and space-travel, which would be really something.

Adamski, took a voyage in a "Flying Saucer," 50,000 miles into outer space, and enroute he met up with a couple of "Beautifyl Venusian Women," who gave him refreshments in sparkling glass goblets. I have it fig-ured out that their was a "Still," secretly located inside the saucer, man-ufactureing "Licquidized Venusian Opeium Concentrates," (an interplanetary wonder drug that mental telepathists know nothing about, and the latest con-coction of the Devils Brew) which Adamski sipped, that got his nanny, and greatly magnified his mental visionary powers, and he seen things!

He was taken 50,000 miles streight up, and got a "Birds eye view of uter space," while the earth traveled more than 300,000 miles in its orbit arrund the sun, or 400,000 miles, at 80,000 miles per hr. (Now this is a speed record, and figure it out, and Adamski, claims it a physical expierance.

Further Adamski, told the space men about his ability to use "Mental Telepathy, but unable to explain its OPERATION. (Well it don't operate) And the "Space men and Venusian Ladies," gave him the horse-laugh! (Read it)

I think its time to let Adamski, know that us "Saucer Fans," are having "Laughing Hysteria," caused by Adamski's version of mental telepathy wrking the same as "Radio-waves," and the telephone, without Electricity & etc.

If I had your ability, I would write a "New Book," and ex-pose the Falsity of Adamski's claims, which is unmistakeably the biggest piece of "Ineffible flub-dub and Balder dash," ever palmed off on the human race.

Glad to hear from yuu, and what you think about IT!

With all my best wishes, I am

Very Sincerely Yours,

Wm. C. Lamb,

Herein are some explanations of the new era, some reasons why the people and all the peoples are concerned, and proof of the identity of, and proof of some of the conceptions which had been originated by Bertha Lebell (of Los Angeles, California, U.S.A.) which had been received psychically by others.

COLLAPSIBLE SHOPPING CART: Witnessed previously but NOTARIZED April 1944, and also, Miss Lebell's illustration of it was seen by the engineer of the Los Angeles 1945 Chamber of Commerce before the idea was telepathized.

THE INNOVATION OF PROTECTING PACKAGED FOODS IN AN INNER LINING, such as wax paper, etc., BEFORE cartoning. Miss Lebell has a letter from a good producer, the contents of which, substantiates the then unmaterialized innovation. The letter is dated September 27, 1946.

APRIL 11, 1956 COMMENT UPON THE RADIO BY A WELL KNOWN NEWSMAN UPON TISSUE GROWTH or the multiplying of tissue cells. This announcement was based upon Miss Lebell's own studies of such and her conceptions. However, some work of hers was dated March 6, 1956, the date on the letter Mistress Lebell had sent to a doctor known to her to keep for her. This letter reads,

"To complement deficiency of flesh in wounds...Some Fresh whole blood or stored blood, coagulated to the extent where it becomes...the size of....

Some of the mystical - occult - spiritual (Celestial Realm - Celestial City) work assigned to Mistress Bertha Lebell and achieved by her is computed within a book about telepathy and interpretations of the Great Pyramid. The book was authored by someone who is a stranger to Mistress Lebell and she simply happened upon it and found it a delightful surprise. Of course, the Great Pyramid has incorporated within its mathematics and symbolotry some plan of events for thousands of years past through the present day. Some of Miss Lebell's work is calculated within the book referred to, and headed by the month and day in which she was born, March seventh. That day WAS named ARBOR DAY and she is a true pyramid builder - a true spiritual realm mason. The Omnipotent Initiator instigated Arbor Day (the name she originated) in honor of God's Trees of Life (these of mystical evolutionary degrees.) Mistress Lebell is indicated in the Bible as well as upon the Messianic seals (the federal government seals) of the United States, also. The Great Seal bears upon it reference to the fact that God Favors the NEW Order of the Ages--the Holy Mistress and Holy Masters and others who had invested so heavily in the Holy Kingdom and those who will have done so. "Those who build shall inhabit thereof" a Bible reference which directly refers to the welfare of those of the Holy Kingdom, the Heavenly Jerusalem. Being one of the prime creative forces of the era, Miss Lebell is nucleatively indicated as one of the Thesaurus--Repository of Words, etc. of the U. S. Treasury Seal, "Treasure Chest" someone had called the "job".

"Flying Saucers" and such extra-terrestrial phenomena of the Ancient Initiator and the Celestial Real Messianic concerned, are holy vehicles of that which is spiritual, intellectual, of course, and provides exercise..and is a means of business for the Holy Ranking Celestial Realm Member or should be considered so. Since the Messianic are sufficiently intelligent to know to whom and to what to give philanthropy, those who gained from them academic knowledge, other advantageous knowledge and business advantage in this evolutionary millenium preparatory epoch should also recognize what their business relationship with the Holy Kingdom's Mistress and any other RANKING Celestial Realm Messianic should be.

In other words, the practical thing, material compensation is important. Of course this is all new, this is a new period, and the birth of a new profession, if so one could say of the Messianic. But what with proper recognition of this, the modern advent of Divinity, which the Holy Kingdom's "Flying Saucers" project and such affords, it is hoped that true reciprocity shall be the result. If finances are important for any business, then finances are more important for the operation of Divinity. This is probably a sort of a formal half-way period (to the year 2001) - it has been a long era of work for some of the Messianic, but it is still hoped that this holy history making era shall be enhanced by sincere volunteers.

Psychic or mental receptivity to the Holy Kingdom's ideas was made possible by the Omnipotent Initiator, of course. Telepathizing opportunity was given some of the Angels at various times and other chores and opportunities were a provided forte for others, and they are supposed to recognize volitionally what is expected of them. The higher ranks whose time was spent in Celestial Realm Administration work for instance, and whose forte is principally that, would appreciate that which would alleviate them. In such manner they of this modern, non-sectarian Realm of spiritual evolution, learn to value proper cooperation. The expense of Divine Government operation is inestimable, the pain thus far, was also so great that it was hardly expressible. But it is all the more reason why this "peculiar people" of such peculiar - unique work should be given extra consideration to their welfare. Especially since the Celestial Realm Ranking Messianic were those who fought to preserve individualism and individual rights against tremendously cryptic odds. And they so wistfully wish that they would be accorded "what they dished out."

Miss Lebell had mystically labored for over 25 years and had served both, the realm of initiates and the exoteric realm thusly, and worked on millenium expediting, conceptions and so forth. It is possible that about 1944 the Holy Order of the Ages began psychically uniting. Miss Lebell found her predestined twelve Holy Associates only psychically, as yet. Such numbered partnership is a symbol of a new era, and she has other psychic contacts also, of course. But thus began the New Order of The Ages (Novus Ordo Seclorum).

Of resurrection, and it is a big topic, one can say this much. Thus far, what there has been of it - has been non-dogmatic, one might even say, non-religious. Crediting the advanced era we might say that the Gods that be, have given us more of the right and freedom to think for ourselves than heretofore. Even the Bible says "God loves the intelligent person" - the reasoning or reasonable person.

Though those concerned of the Celestial Realm had accomplished inestimably much, they are yet the infant messianic - yet developing their "man child" - their psychic power. But to establish the Kingdom of Heaven on earth actually means to acknowledge the Celestial City messianic authority concerned and the authorization rights by the Celestial Realm messianic concerned. In other words, it means set in comfortable (favorable) circumstances those who are messianic. The opposite of the word "earth" or exoteric domain is the messianic psychic domain (the Divine communion - telepathyclomain and such). The spiritual magnetic field is "Heaven" for instance. And Heaven - the Heavenly Kingdom, its advantages, its operations had been built by the Holy Masons - invested in, financially, physically, psychically, mentally - and the fruits or dividends, primarily the financial fruits were merely loaned to the world, and tentatively so, knowing that the honorable shall share such fruits with the Celestial Realm messianic themselves, upon learning of the origin. And they shall make a proper place or rather properly acknowledge the messianic concerned, for that is to "establish on earth (on the exoteric domain), to convenience, to comfort those concerned of the Heavenly Kingdom, the Kingdom of Heaven."

TO WHOM IT MAY CONCERN:

This is by way of advising that under Messianic Celestial Realm Auspices (The Holy Kingdom), I, Messianic Mistress Bertha Lebell shall again produce some Celestial phenomena, be such phenomena flashes of Lights, flashes of color, space ships, other flying objects, inclusive of Daity disks, et cetera. I, Bertha LeBell, shall cause to be brought about such extra-terrestrial or spiritual occurrence within far places or/and near places any time around the date of July 11, 1956 or soon thereafter.

NOTARIZED
July 11, 1956

Signed: Bertha Lebell
Los Angeles, California

On July 16, 1956, newspapers, radio broadcasting stations, etc., had published statements similar to the following: "A mysterious reddish light had been seen in Los Angeles.....it disappeard."

On Thursday, July 19, 1956, newspapers and other reporting agencies, no doubt, had published something about a light which appeared in the sky that day, and it was reported that it seemed artificial and flashed on and off. That disappeared, of course.

They also said that there was a ball of fire that day which sped through the Kansas skies.

On July 20, 1956, it was publically reported and announced on radio and, no doubt, elsewhere about the space ship which appeared to some in Van Nuys, and about the "men from Venus" who were in it, and who had long flowing hair, etc.

On July 26, 1956, there was a radio comentation heard announcing the sighting of a Cornucopia which was visible in the skies, and which disappeared, of course. This was probably reported by others also.

All of this, of course, is testimony to the fulfillment of the above July 11, 1956 intention to execute, and the manifestations thereof the reporting agencies will substantiate. Observe that herein is listed a number of some of the different types of phenomena which had been promised and fulfilled, all within the time specified.

The Holy Kingdom's Mistress Bertha Lebell had planned the "Flying Saucer" demonstration, had the plan notarized, and brought about its execution.

STANLEY 7-1084

March 22, 1957

Mr. Frank Scully
Palm Springs, California

Dear Mr. Scully:

A note to thank you for autographing the invitation Eve Currie had to your "inauguration" a couple of weeks ago. I appreciated your taking the time in a busy day to do it.

Eve and Gordon have been two of my best friends for many years. I am also a man from Down Under, but a little East of Australia, New Zealand.

Some months ago I sent you one of my brochures dealing with my telepathic contact experiences, and although I have not mentioned anything to Gordon about it (he is not tuned in on saucers and would think I was wacky) I asked him to ask you if you had received my book. You said "no" so I am sending an extra copy with this.

I have a complete book just finishing which is a greatly expanded version of the brochure. We wanted to see how public acceptance would be before going into a book. It has been good and I believe the book will be something of a blockbuster.

Recently certain information has come to me regarding the involvement of the Soviets with certain of these UFO's, and sometime I would like to have the chance to talk to you in private regarding this.

You will readily recognize from the brochure that I am convinced these craft are entirely part of a spiritual set-up and that applied religion is one of the things we are going to need most.

I might add that there is a very good explanation for the stories of the crashed saucer which the pooh-bah boys ridiculed in your tome "Behind the F.S."

If Gordon comes down to Palm Springs again before he leaves, I hope I can make it with him. Meanwhile, I send you my expressions of esteem and my kind regards.

Sincerely yours
Trevor James

Lt. Colonel Robert E. Davies, USAFR

Van Nuys, California
April 15, 1957

Mr. and Mrs Frank Scully

2096 Colle Felicia

Palm Springs, California

Dear Sir:

I would like to take this opportunity to extend an invitation to you, to be the guest of the squadron on the night of Wednesday, April 24, 1957 at 7:30 P.M.

The 9356th Air Force Reserve Squadron will be holding an "Open House" for members of industry, community and civic groups, radio and television, and the press.

It is our express desire to get better acquainted with the various organizations from whence come many of the Air Force Reservists who belong to our very active squadron.

This informal get-together we hope will provide an impetus to our current nation wide Air Force Reserve Recruiting campaign and, at the same time, enrich the close association we have had in the past with the organizations you represent.

Major Harry May, USAFR, a member of our squadron and an instructor of technical skills with Rocketdyne, will highlight the evening with a preview of a 16MM color film titled: "We've Seen the Saucers". This semi-documentary type film is being loaned to us by a private civilian group interested in this phenomena. We offer this film purely as an entertainment feature knowing full well that you realize the subject matter does not represent our thinking or that of the Air Force. Following the film, refreshments will be served. After our usual "coffee break", Major May will conduct a brief symposium on this unusual topic.

We are looking forward to our "Open House" the night of April 24, and we sincerely hope that you can find time to permit us to get better acquainted with you.

Sincerely,

Lt. Colonel Robert E. Davies

DATE: Wednesday, April 24, 1957 TIME: 7:30 P.M.
LOCATION: 17000 Van Owen Street, Van Nuys

Mr. Frank Scully
2096 Calle Felicia
Palm Springs, Calif.

Mr. Scully:

With the Sputniks out there, circling the earth, there has been a sudden increase in the reported sightings of "flying saucers"--and I have begun re-reading books in my library on the subject. Naturally, I have re-read "Behind the Flying Saucers" by Frank Scully.

And I wonder--have you found out anything new since the book was published in 1950? Then, you wrote: "Having given ~~the~~ about every devil his due, I have been debating the next step. Should I Tell All? Or am I, too, bound to exercise discretion?"

Okay, here's the pitch: I'd like to do a feature story about flying saucers, and I'd like to quote from your book. May I?

And, could you answer a few questions?

- 1) What do scientists think today about magnetic propulsion?
- 2) Are they working to solve the problems?
- 3) Have any experiments been made along this line?
- 4) With any success?
- 5) Has the Air Force learned anything about the principles of magnetic propulsion and destruction?
- 6) Have any more saucers landed in the United States?
- 7) Are there any good guesses as to the origin of the saucers, revising the Venus explanation or further confirming it?

I realize that you probably have not been invited to sit in on top level scientific discussions--but you obviously know people who do get such invitations.

We could do a real service, I believe, if we stir things up some more.

Sincerely,

Donald L. Wilson
